

ADROL KISSAN UTTO **JD21A/GL-4/C4**

UNIVERSAL TRANSMISSION TRACTOR OIL

DESCRIPTION

ADROL KISSAN UNIVERSAL TRACTOR TRANSMISSION OIL (UTTO) is an JD21A/GL-4/C4 agricultural oil. UTTO oils are generally formulated to meet the requirements of off-highway moving equipment. They are designed to keep sludge and varnish from depositing on the equipment's interior and to keep filters and screens from plugging and restricting oil flow. The improved EP protection supplies better wear control with copper based alloys used in piston pumps and synchronizers. It also allows for stable frictional performance.

APPLICATIONS

- Recommended for use in the hydraulic systems, final drives, transmission, wet brake system of most of the farm tractors. Tractors fitted with Power Take Off with wet clutches
- Hydrostatic drives
- All tractors, earth moving and other off-road equipment where the use of a UTTO type product is specified by the manufacturer • Automotive manual transmissions and gearboxes

PERFORMANCE STANDARDS

Transmission – API GL-4

BENEFITS

- Excellent protection against rust and corrosion.
- Advance anti-wear protects the engine components against wear.
- Highly shear stable hence retention of fluid viscosity.
- Good filterability in hydraulic system.
- Compactable with wide range of elastomers preventing the leaks.
- Can be used in all seasons.

TYPICAL PROPERTIES

Viscosity @ 100°C (mm ² /s)	10.7
Viscosity @ 40°C (mm ² /s)	68
Viscosity Index	165
Flash Point (°C)	220
Pour Point (°C)	-39

*Test results are based on samples.
