

## **ADROL 4T-PLUS**

API SL, JASO MA2, SAE 10W-30

### **FOUR-STROKE MOTORCYCLE ENGINE OIL**

#### **DESCRIPTION**

**ADROL 4T PLUS** is high quality engine oil designed to meet the requirements of four-stroke motorcycle engines where API SJ performance is required. Meets friction tests.

#### **APPLICATIONS**

- Air and liquid-cooled four-stroke motorcycle engines
- Particularly suitable for Japanese high-performance motorcycle engines
- Motorcycles with and without oil immersed clutches
- Motorcycles with exhaust catalytic converters
- Latest generation, four-stroke scooter engines

#### **PERFORMANCE STANDARDS**

- API SL
- JASO MA2

#### **BENEFITS**

- Provides good engine protection
- Trouble-free operation
- Long periods between overhauls

#### **KEY PROPERTIES**

|  |               |
|--|---------------|
| SAE GRADES                             | 10W-30        |
| Appearance                             | Golden Yellow |
| Viscosity @ 40°C (mm <sup>2</sup> /s)  | 71 cSt        |
| Viscosity @ 100°C (mm <sup>2</sup> /s) | 10.5 cSt      |
| Viscosity Index                        | 132           |
| Pour Point (°C)                        | -30           |
| Flash Point (°C)                       | 230           |
| TBN, mgKOH/g, (ASTM 2896)              | 6.57          |

\*Test results are based on samples.
