

ADROL TQ

AUTO TRANSMISSION STEERING OIL (TQ)

DESCRIPTION

ADROL TQ AUTO TRANSMISSION STEERING OIL is a high quality automatic transmission fluid manufactured from highly refined base stocks and carefully selected additives, to provide a superior performance in the automatic transmission systems of automotive. **ADROL TQ AUTO TRANSMISSION STEERING OIL A** provides superior protection for the automatic transmission system against wear & corrosion, while its high viscosity index ensures unmatched lubrication at high operating temperatures.

APPLICATIONS

Trans Fluid is recommended for use in power steering units of passenger cars and commercial vehicles, Light Trucks, automatic transmissions and certain manual transmissions of vehicles.

BENEFITS

- Superior oxidation and thermal stability reduce deposit formation.
- Superior anti-wear protection to critical parts
- Very high viscosity index and low pour point ensures proper lubrication in both high temperature operation & low starting temperatures.
- Good shear stability implies a longer service life of oil and the hardware.
- Good foam control leads to smooth gear shifting.
- Compatible with all common elastomers.
- Provides good protection against rust and corrosion
